SUMMARY OF ST. LOUIS MARKETS.

Yesterday's grain market was dull and easy. The shorts were out and the longs had o outside support in their efforts to bolster prices on the strength of the drop in tem-perature. The few weather and crop reports received were favorable, though it was secognized that a heavy frost would prove a serious menace to the growing grain. Many Western points were cut off by the storm and it was said that a blizzard was on in Colorado and Nebraska. Liverpool opened only a trifle higher, following the heavy demestic gains of the previous day. France was the only good foreign buyer. The market had some support until the last hour, when reports of big shipments from the Argentine caused a sharp reaction. Local and primary receipts were again heavy and the east market was dull and weak.

Corn was all but neglected. There was occasional buying by shorts. The clearances for the day were heavy, but the week's total was comparatively small. In the absence of outside trading the market was governed by wheat.

May wheat opened 143% off and closed 15c off. May corn opened Willie off and closed Se off.

Mny onts closed 'se up. Receipts of produce were light and values of fruits and vegetables were generally teady. Interest in local securities was scattered with values on the downturn. Mississippi

Valley was the only strong spot. Yesterday's bank clearings were \$7.894.892, balances \$1,117,715. Discount rates were steady between 5 and 6 per cent. Spot cotton was 1-16c higher in the local market.
